

ARAKNET

// INFORMATION PACK

// VERSION 2.0

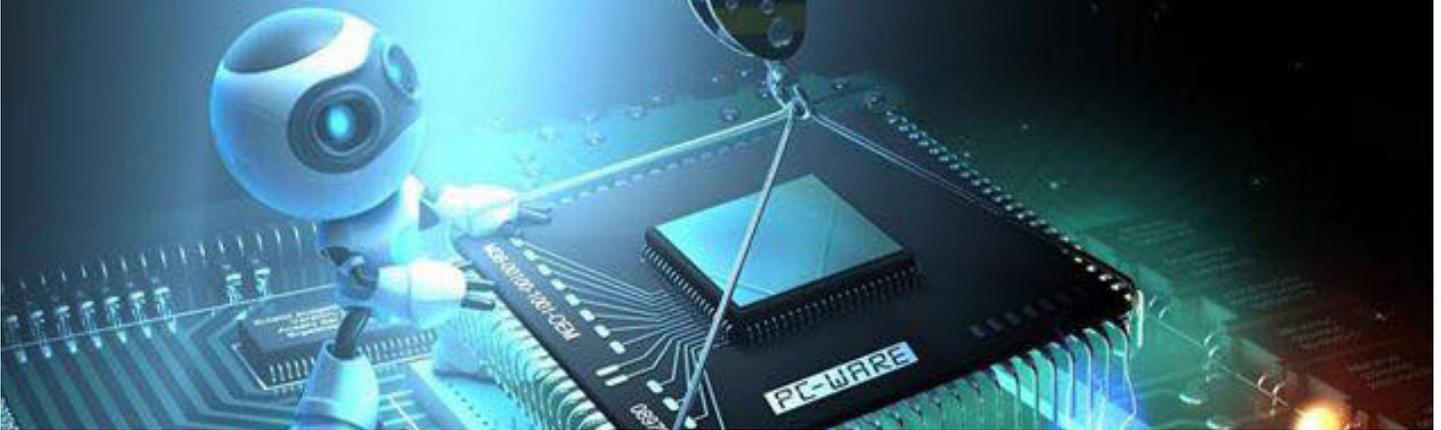

“BRINGING LIFE BACK TO THE UNDERGROUND SCENE”

ArakNet consists of quality **BBS systems** that have been carefully selected to become part of the most amazing creative and innovative collective via personal **INVITE ONLY**. There is **NO** application to join as membership is based on invitation or peer review by existing ArakNet members. These **Bulletin Boards** are run by **sysops** that push the boundaries of what their BBS software can do. These sysops are passionate about their craft and promote the continual growth of BBSes. This network consists of message areas that discuss the evolution of BBSes and Online Communities, cyber-culture (retro, current, and future), computer/real world artistry and interactive media, programming and a support network for all things BBS.

If you are an existing ArakNet sysop that would like to invite a new member for review, send a message in the sysop/test echo with your candidate.

ArakNet promotes **FREE SPEECH** as we respect everyone's opinion on all topics. However, we do not condone flame-wars or personal attacks in message areas. Any personal conversations non-topic related should be taken offline or through private messages.

{CODE} :: The Evolution of BBS Software / Games / Utilities

BBS software, games, and utilities are always evolving with the current technology to date. The dial-up systems of yesteryears have transformed to telnet and web enabled online communities. Some may run their BBSes on legacy computers while others choose to host them on modern OSes and on cloud hosted servers.

We invite BBS software authors, door game developers, and custom mod teams to make **ArakNet** their home network. We inspire creativity and are willing to test out new releases as they are published.

{THE UNDERGROUND SCENE} :: BITS and BYTES

The “Underground Scene” consists of artists, musicians, and coders. ANSI, ASCII, and PETSCII art are the oldest forms of textmode art. Groups such as Blocktronics, Legacy, and Mistigris will continually be promoted and advertised on **ArakNet**. Demoparties and Compos will also be discussed on **ArakNet**.

{CYBERCULTURE} :: The Nerd and Geek Lifestyle

Hack The Planet! This is our world now. The world of the electron and the switch, the beauty of the baud,” wrote The Mentor, later identified as Loyd Blankenship. “We explore, and you call us criminals. We seek after knowledge, and you call us criminals. We exist without skin color, without nationality, without religious bias, and you call us criminals.

If you own more than one computer or mobile device in your home, you are bound by technology. If you are continuously checking your emails or posting messages via chat or social media network, you should be on **ArakNet**.

{SOCIAL-CONNECT} :: Beyond BBSing

Other ways to communicate with our **ArakNet Family**.

Facebook : ArakNet Community - <https://www.facebook.com/groups/araknetcommunity>

Discord Server - <https://discord.gg/zEC9vTT>
